

## Curtain Template K-3 W4

1. Print as many copies as needed to make sure that all children will get one
2. Cut along the dotted line
3. Provide colorful, patterned, paper for students to glue on both sides of their window panes
4. Younger students can draw a picture/object in each window pane to remind them of something they learned about Brazil.
5. Older students can cut out the window panes and use their window to "see though" into other "worlds"
